

# Demystifying the Modifiers

## A Self-Paced CD-ROM Continuing Education Course

CPT modifiers have long been a topic of many discussions, questions and audits. *Demystifying the Modifiers*, from HealthcareBusinessOffice, is a self-paced, CD-ROM course that reviews all HCPCS Level I CPT modifiers listed in the CPT manual.

This course features in-depth coverage of modifier usage, the do's and don'ts of modifiers, and guidelines on how to support the modifier used (supporting documentation). This course also takes a close look at modifiers that are similar in description, and emphasizes the differences for a better understanding of usage and reporting. Throughout the course each modifier is identified if it is appropriate for use in ASC settings, or not.

*Demystifying the Modifiers* also takes a look at the more common HCPCS Level II modifiers – their usage, guidelines, and reporting purposes.

### **"Demystifying the Modifiers" course content:**

- Pre-Test – taken by the user before the start of the main (full) course
